

MAINELY EXPERIENCES

STARLIGHT SOIRÉE

As twilight deepens and the sky begins to glow, settle into a beautifully styled evening experience designed for wonder, connection, and calm.

Starlight is a serene, two-hour evening experience hosted at your private residence, vacation stay, or a carefully selected scenic coastal location. Thoughtfully curated and fully set up for you, this experience invites you to slow down, look up, and enjoy the quiet magic of the Maine night.

You'll arrive to an intimate **stargazing lounge** featuring:

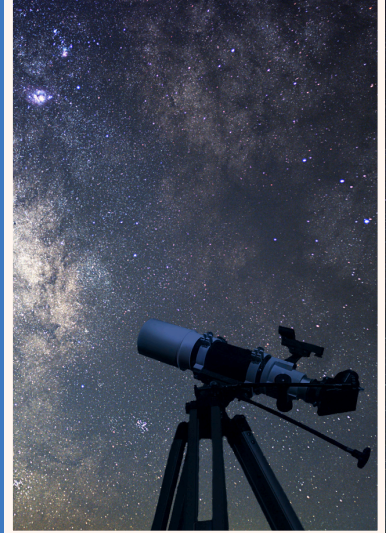

- A beautifully styled lounge with blankets and plush pillows
- A low, intimate boho table
- A curated picnic basket featuring thoughtfully selected Maine-themed sweet treats, chilled sparkling water, and glassware
- A sculptural teepee-style light installation with warm, glowing ambient illumination
- A Bluetooth speaker for gentle background music
- A stargazing map guide to help identify constellations and celestial highlights
- A telescope, set up and ready for stargazing

Experience timing: 7:30 PM – 9:30 PM. Guests: Up to two

Every detail is designed to feel peaceful, romantic, and perfect for couples, friends, or anyone craving a serene night under the stars.

If the Stars Stay Hidden...

Some evenings invite stillness rather than stargazing. If cloud cover limits visibility, Starlight becomes a **Moonlit Lounge Experience**—a cozy, candle-lit evening focused on ambiance, comfort, and connection. The full setup, décor, music, and picnic experience remain, offering a beautifully atmospheric night even when the sky chooses to stay mysterious.
